Fumeless pickling and passivation Chemicals

## About Us

We Techno services is a navsari Gujarat based company since 1994.

We are manufacturing & developing all of metal surfaces treatment pickling & passivated chemicals as per standard ASTM380 since Last Five years.

Techno services specialized in stainless steel ( S, series ), aluminium ( A, series ) , copper ( C, series ) titanium (T, series ) and also development of chemicals as per customer specification and requirement as well.

Each product is manufactured with greatest precision after strict quality control checks to achieve high standard perfection and by adopting and adhering to the principals of uniformity in the business protocol. Backed by a dedicated and skilled work force, the company also specialized in development and manufacturing chemicals as per customer specification and requirement also.

## Our Vision

To be The Most Trust brand in manufacturing chemicals.

be a Quality leader through technology and service.

be a great place of work where peplus are inspired to delivered to the best of their abilities.

Quality management system.

## Product List

- ▶ PASTE .....Metal Cleaning Paste (Series - 1)
- ▶ SPRAY .....Metal Cleaning Spray (Series - 2)
- ▶ PASSIVATION .....Metal Passivation Chemicals (Series - 3)
- ▶ CLEANER .....Metal Cleaner ( Oil Remover ) (Series - 4)
- ▶ DEEP .....Metal Deeping Process Liquid (Series - 5)
- ▶ E.P.CHEMICAL .....Metal Reverse Current Electro Polishing )
- ▶ E.P.BRIGHTENER .....Metal Electro Polishing Brightener )
- ▶ TOP COAT .....Metal Top Coat Lacer (water Solution )
- ▶ HEATING PROTECTOR .....Metal Heating Protector Lacquer
- ▶ ANTI SPATTER .....Metal Anti Spatter (Before Welding)

## Advantages use for Products

- 1) Welding Discolor Scales are Easily Removing.
- 2) Metal Removable May be Controlled.
- 3) Stainless Steel Uniform is Starting Finish on Surface.
- 4) Pipelines Inside Cleaning for Easy Process on any Scales.
- 5) Pin Holes or Clear and can be detected.
- 6) Universal Look for your Components.
- 7) Stop Corrosion & Make Component Surface Complit Corrasive Resistance.
- 8) Fumless Product so Easy Work.
